Reported by Joshua.E.Hernandez, Nov 20, 2011

What steps will reproduce the problem?

1. I did the following step as listed in the instructions:

"Add http://matclipse.eclipselabs.org.codespot.com/git.update/ to the update
Install New Software and install Matclipse"

2. I go into Preferences to update the "Path to Matlab Exectuable" for me its

/Applications/MATLAB_R2009b.app/bin

3. I open up a .m file and set eclipse to: Matlab Workspace

What is the expected output? What do you see instead?

"i expect to see the code but I do not. I have attached a file showing what i

What version of the product are you using? On what operating system?

Mac OS X 10.6.8
eclipse: Version: Indigo Service Release 1

Please provide any additional information below.

I couldn't even install it. I am on mac osx 10.7.2 with eclipse 3.7.0.
the Next and Finish buttons are all disabled, even if I have already clicked
terms of the license agreement"

I have just tested the update on Windows and Linux, so I will have a look on
too!

I am also having the problem that the Next and Finish buttons are disabled. U
Indigo under Ubuntu 10.04, I don't have sudo rights on this machine but I wou
thats the problem...
